

ModBar Installation Sheet

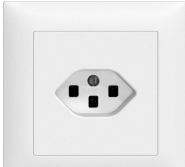

Installation Preparation Switzerland (Customer-Side) for any ModBar system

- Check off each item as completed and return this signed installation sheet to us at info@kialoa.ch or by postmail.
- An installation appointment can only be scheduled after we receive the signed installation sheet. Please allow at least two weeks for this.
- Please notify us at least 48 hours before the scheduled installation if the installation cannot take place as planned.
- If the planned installation cannot be carried out properly due to missing or incorrect preparation by the client, or if delays occur as a result, the additional work involved will be billed.

Counter, base and installations according to specifications https://modbar.com/resources/	Ready and prepared for installation of the ModBar system
--	---
