**SUPRA**

## DESIGNED TO DELIVER. BUILT TO ENDURE

Introducing Supra. The next generation of high performance grinders by Macap. Designed with innovative features for demanding environments, Supra can handle the pressure of peak service.

Available in **68mm** and **83mm** burr configurations, Supra is built to match your output demands, whatever your workflow.

It delivers what every barista wants: an exceptional coffee grinding experience that captures every nuance, without compromising on speed or performance.

For busy cafes, it's one less thing to think about, and one more thing you can count on.

**Fast. Capable. Supra.**

# SUPRA<sup>83</sup>

## MAIN FEATURES

- ❶ Coffee hopper capacity 1.5kg
- ❷ 83mm flat burrs
- ❸ 3.5" Touch Screen Display 
- ❹ Dimensions (W×D×H)  
244×354×638mm
- ❺ Motor power 750 W
- ❻ Instant productivity  
5.5 - 6 g/s 
- ❼ CTS - Coffee Targeting System 
- ❽ FOS - Fast Opening System 

## G SERIES ADDITIONAL FEATURES

- ❾ ITT - Instant Tare Technology  
(Series G only) 
- ❿ SDR - Smart Dose Recognition  
(Series G only) 

# SUPRA<sup>68</sup>

## MAIN FEATURES

❶ Coffee hopper capacity 1.5kg

❷ 68mm flat burrs

❸ 3.5" Touch Screen Display

❹ Dimensions (W×D×H)  
244×354×638mm

❺ Motor power 550 W

❻ Instant productivity  
3.8 - 4.5 g/s

❼ CTS - Coffee Targeting System

❽ FOS - Fast Opening System

## G SERIES ADDITIONAL FEATURES

❾ ITT - Instant Tare Technology  
(Series G only)

❿ SDR - Smart Dose Recognition  
(Series G only)

## WHY SUPRA?

We've engineered Supra from the ground up to revolutionise performance coffee grinding in ultra-high volume environments.

Every angle, line, and surface is purposeful – delivering strength without excess, and form that follows uncompromising function.

- ▶ **Dependable Design**  
Built from premium materials with no compromise, this grinder is engineered to handle the demands of non-stop commercial service.
- ▶ **Superior Mechanics**  
Inside, every mechanical component is tuned for smooth, consistent operation under load. Proven performance, engineered to keep delivering – day after day, year after year.
- ▶ **Built for Heavy Workloads**  
Engineered for busy environments where consistency can't slip. A grinder that doesn't slow down, even when the queue builds.
- ▶ **Anti-clumping Technology with Easy Removal**  
Designed to reduce retention and promote an even grind flow. Delivers smooth, even dosing without clogging.
- ▶ **Rapid Burr Access for Minimal Downtime**  
Cleaning, inspection and burr changes are faster than ever thanks to the Fast Opening System with tool-free quick access. A time-saver for technicians and baristas alike.

## COFFEE TARGETING SYSTEM

The Supra's engineered spout can be adjusted to deliver ground coffee exactly where it needs to be — right into the centre of the portafilter.

Minimal mess, minimal waste, and even distribution from the start. For busy baristas, it's one less thing to think about and one more thing you can rely on.

## FAST OPENING SYSTEM

The Fast Opening System enables an instant transition from micro to macro adjustments with a simple click – plus easy access to the burrs and grind chamber for fast, hassle-free cleaning and maintenance.

It's a simple mechanism that saves time, reduces downtime, and keeps your workflow smooth, especially when service doesn't slow down.

## HMI INTUITIVE AND CUSTOMISABLE INTERFACE

- ▶ DTS - Dosing Type Selection  
Standard, Push & Grind, Barista mode
- ▶ Dynamic homepage
- ▶ 4 programmable doses  
+ continuous dosing
- ▶ Adjustable LED lighting
- ▶ Adjustable ventilation  
on 5 duration levels
- ▶ Configurable access password

**MACAP**

INTRODUCING  
**SUPRA**  
G SERIES

**The first truly commercial-ready  
grind-by-weight grinder.**

Supra G redefines grind-by-weight technology – delivering the precision baristas demand, without slowing down service. Unlike other systems that sacrifice speed for accuracy, Supra G keeps up with the pace of the busiest bars thanks to instant portafilter tare and automatic dose recognition.

With no need for external scales or extra steps, it's one less thing to think about, and one more thing you can count on.

MACAP

MACAP

ADDITIONAL FEATURES

## SUPRA G SERIES

### INSTANT TARE TECHNOLOGY

Say goodbye to the delays of traditional grind-by-weight systems. With Instant Tare Technology, the Supra G Series delivers precision weighing in just 0.1 seconds – lightning-fast responsiveness that keeps up with the fastest-paced environments.

No need to wait for the scale to stabilise; dosing starts immediately, allowing baristas to work at full speed without sacrificing accuracy. It's grind-by-weight performance, redefined for high-volume efficiency.

### SMART DOSE RECOGNITION

Consistency gets smarter with Macap's Smart Dose Recognition.

The Supra G Series can be programmed to recognise up to five different portafilters, automatically identifying each one the moment it's inserted.

Whether it's a single, double, bottomless or custom, the grinder instantly adjusts to deliver the correct dose – no buttons, no guesswork.

## OUR STORY

Macap, short for Macina Caffè Petiziol, traces its roots back to 1930.

Founded by Ottorino Petiziol near Venice, the company began as a mechanical workshop, later specialising in coffee grinders and bar equipment.

Now in its third generation, led by Ottorino's grandchildren Susanna and Marco, Macap blends decades of expertise with modern processes to produce high-quality grinders trusted worldwide.
