PROFESSIONAL USE

...beyond the clean!

DAILY HYGIENE AT THE BAR COUNTER

OUR PHILOSOPHY

In the **Pulycaff®** laboratories, research has been going on since **1961** for the production of its Espresso Coffee Machines and Coffee Grinders cleaning products, with active substances included in the **FDA** list capable of combining effectiveness, usefulness and respect for the environment with rapid biodegradability close to 100%. A sensitivity that intends to anticipate the interest of consumers in the search for so-called verde products. A need that finds its first answer in **verde Pulycaff®**, made with innovative vegetable origin ingredients, precursors of any future regulatory requirements: it is the first innovative product of the “**verde**” line presented by **Pulycaff®** in 2014. Designed specifically for the maintenance of the brewing group, shower, filter and filter holder and waste valve of Espresso Coffee Machines, deodorizes, cleans and always makes dispensing efficient; It completely eliminates any residue without damaging the metals and chromed parts and does not release dangerous substances. It is awesome for soaking cups, teapots, etc. and eliminates all traces of coffee or lipstick from the ceramics while respecting the finest decorations. **The ingredients of the Pulycaff® verde line series are in line with the Community legislations to REACH and CLP regulations.**

FEATURES

Equipped with very rapid dissolution, it has an exceptional descaling power of the carbonaceous residues of coffee, with an excellent degreasing / emulsifying / wetting action, with low foam and quick rinsing. The containers are recycled and / or recyclable and the packaging SUSTAINABLE for the environment. **Pulycaff® verde** today, represents the best on the world market for the maintenance of equipment for coffee machines. Brand - Patented.
